AMENDED MOTION PURSUANT TO SECTIONS 105(a) AND
502(b) OF THE BANKRUPTCY CODE AND BANKRUPTCY
RULE 9019 FOR APPROVAL OF PROCEDURES FOR DETERMINING
THE ALLOWED AMOUNT OF CLAIMS FILED BASED ON STRUCTURED
SECURITIES ISSUED OR GUARANTEED BY LEHMAN BROTHERS HOLDINGS INC.

TO THE HONORABLE JAMES M. PECK
UNITED STATES BANKRUPTCY JUDGE:

Lehman Brothers Holdings Inc. ("LBHI"), as debtor and debtor in possession

(together with its affiliated debtors in the above-referenced chapter 11 cases, the "Debtors" and,

collectively with their non-debtor affiliates, "Lehman"), files this motion, and respectfully

represents:

Preliminary Statement

1.   LBHI is seeking to establish procedures to efficiently reconcile and

establish the allowed amount for the more than 21,000 proofs of claim listed on Exhibit A

annexed hereto (the "Structured Securities Claims") with aggregate claims of approximately $55

billion[1] for the purposes of voting and distributions under the Plan (as defined below). The

Structured Securities Claims are all based on structured securities issued or guaranteed by LBHI

(the "Structured Securities"). Absent the implementation of the proposed procedures, the claims

reconciliation and objection process for the Structured Securities Claims would be

extraordinarily burdensome on the Debtors, the claimants and the Court. Moreover, approval of

the proposed procedures is a central component of the settlement embodied in the Debtors'

Second Amended Joint Chapter 11 Plan filed concurrently herewith, and is a condition precedent

to confirmation of such plan. Failure to file this Motion and to obtain timely approval thereof is

also a termination event under certain Plan Support Agreements (defined below).

2.   Prior to the Commencement Date, LBHI and various of its foreign

affiliates issued approximately 5,000 securities with a notional amount of more than $40 billion

to thousands of investors around the globe. Many of these securities were complex structured

notes which provide that the return to the investors at maturity and/or the payment of periodic

interest is linked to the performance of an underlying asset or group of assets including, *inter

alia*, global indices, single stocks, currencies, interest rates, and various credit derivative

instruments and baskets thereof. Many of the Structured Securities issued by LBHI's affiliates

are guaranteed by LBHI.

3.   Because the Structured Securities generally do not have indenture trustees,

the responsibility for filing proofs of claim based on the Structured Securities falls to the record

---

[1]   This amount includes claims included in these proofs of claims on grounds other than ownership of
Structured Securities. The Motion is only seeking to establish the proposed allowed claim amount for the portion of
the Structured Securities Claims that relate to Structured Securities. The Motion does not have any effect on the
portions of the Structured Securities Claims that are based on claims other than Structured Securities.

holders and beneficial holders thereof. The Bar Date Order[2] provided an alternative set of

bespoke claim filing procedures for claims based on a significant number of the Structured

Securities. The procedures proposed herein are intended to ease the administration of the

immense number of these complex claims while neither affecting nor modifying in any way the

substantive rights of any claimant to dispute LBHI's proposed allowed claim amounts.

4.   The Debtors and the Court have previously recognized the extraordinary

nature of these cases and established omnibus procedures to enable the Debtors to cope with the

magnitude of the Debtors' assets and liabilities and filed claims. For all of the reasons set forth

herein, this Motion should be approved.

Jurisdiction

5.   This Court has subject matter jurisdiction to consider and determine this

matter pursuant to 28 U.S.C. § 1334. This is a core proceeding pursuant to 28 U.S.C § 157(b).

The statutory basis for the relief requested herein is section 363(b) of the Bankruptcy Code.

Background

6.   Commencing on September 15, 2008 and periodically thereafter (as

applicable, the "Commencement Date"), the Debtors commenced with this Court voluntary cases

under chapter 11 of title 11 of the United States Code (the "Bankruptcy Code"). The Debtors'

chapter 11 cases have been consolidated for procedural purposes only and are being jointly

administered pursuant to Rule 1015(b) of the Federal Rules of Bankruptcy Procedure (the

"Bankruptcy Rules"). The Debtors are authorized to operate their businesses and manage their

properties as debtors in possession pursuant to sections 1107(a) and 1108 of the Bankruptcy

Code.

7.   On September 17, 2008, the United States Trustee for Region 2 (the "U.S.

Trustee") appointed the statutory committee of unsecured creditors pursuant to section 1102 of

the Bankruptcy Code (the "Creditors' Committee").

8.   On September 19, 2008, a proceeding was commenced under the

Securities Investor Protection Act of 1970 ("SIPA") with respect to Lehman Brothers Inc.

("LBI"). A trustee appointed under SIPA (the "SIPC Trustee") is administering LBI's estate.

9.   On January 19, 2009, the U.S. Trustee appointed Anton R. Valukas as

examiner in the above-captioned chapter 11 cases (the "Examiner") and by order, dated January

20, 2009 [Docket No. 2583] the Court approved the U.S. Trustee's appointment of the Examiner.

The Examiner filed its report with the Court on March 11, 2010 [Docket No. 7531].

10.   On June 29, 2011, the Debtors filed their Second Amended Joint Chapter

11 Plan [Docket No. 18124] (as amended or supplemented from time to time, the "Plan") and the

Disclosure Statement to the Debtors' Second Amended Joint Chapter 11 Plan [Docket No.

18125] (as amended or supplemented from time to time, the "Proposed Disclosure Statement").

11.   Additional information regarding the Debtors' businesses, capital

structures, and the circumstances leading to the commencement of these chapter 11 cases is

contained in the Affidavit of Ian T. Lowitt Pursuant to Rule 1007-2 of the Local Bankruptcy

Rules for the Southern District of New York in Support of First-Day Motions and Applications,

filed on September 15, 2008 [Docket No. 2]

Relief Requested

12.   By this Motion, pursuant to sections 105(a) and 502(b) of the Bankruptcy

Code and Bankruptcy Rule 9019, the Debtors seek approval of the Structured Securities Claim

Determination Procedures (as defined below) for the determination of the allowed amount of

Structured Securities Claims for the purposes of voting and distributions under the Plan. To the

extent the Plan is not confirmed, the Proposed Allowed Claim Amounts may no longer have any

effect and the Debtors reserve the right to object to the Structured Securities Claims on all

grounds.

13.   The Debtors are not seeking approval of the methodologies utilized to

calculate the Proposed Allowed Claim Amounts (as defined below) in this Motion. However, in

light of its centrality to the settlements embodied in the Plan, adoption of the Structured

Securities Valuation Methodology (defined below) as the means of valuing the Structured

Securities is a condition precedent to confirmation of the Plan.

The Structured Securities

14.   Prior to the Commencement Date, in order to provide unique and

customized investment opportunities to Lehman's clients, Lehman entities issued structured

securities to investors around the globe. The Structured Securities include certain (i) structured

notes issued by LBHI (the "LBHI Structured Notes");[3] (ii) structured notes issued by Lehman

Brothers Treasury Co., B.V. (the "LBT Notes"); (iii) certificates and warrants issued by Lehman

---

[3]   This Motion does not apply to the 56 securities actually issued by LBHI under the European Medium Term
Note Program that are "Lehman Programs Securities." Pursuant to this Court's *Order Clarifying the Debtors'
Supplemental Notice and the Bar Date Order with Respect to Claims Relating to Lehman Programs Securities
Issued by LBHI* [Docket No. 11267] (the "LBHI Issued LPS Order"), LBHI will amend its Schedules of Liabilities
to adjust the amount of its liabilities for such securities and to reflect that such liabilities are not contingent,
unliquidated or disputed. Claims filed based on these 56 securities will be disregarded and LBHI will make
distributions on account of such securities to the parties that hold the securities on the books and records of the
relevant clearing agencies.

Brothers Securities N.V.; (iv) structured securities issued by Lehman Brothers (Luxembourg)

Equity Finance S.A.; (v) certificates issued by Lehman Brothers Finance S.A.; and (vi)

structured notes issued by Lehman Brothers Bankhaus AG. LBHI guaranteed the payments on

many of the Structured Securities issued by its foreign affiliates. Many of the Structured

Securities were issued as part of the European Medium Term Note Program, which

predominantly provides that the return to investors at maturity and/or periodic interest payments

is linked to the performance of an underlying asset or group of assets including, global indices,

single stocks, currencies, interest rates, and various credit derivative instruments and baskets

thereof. In some instances, the terms of the securities provide that the principal and/or interest

payments due under such securities may be partially or wholly "protected."

15.   Typically, in chapter 11 cases, for widely held debt securities, one claim is

filed by the indenture trustee on behalf of all holders of such securities. Individual security

holders are not required to file claims. However, the Structured Securities are unique. In

objections filed to the Debtor's motion seeking the establishment of a bar date, various holders of

Structured Securities noted that most of the Structured Securities do not have indenture trustees

or any other party to file a global claim on behalf of all security holders. As a result, the Debtors

included in the Bar Date Order an alternative set of bespoke claim filing procedures for claims

based on a significant number of the Structured Securities which provided that claims could be

filed by any party, including the record and beneficial holders of the Structured Securities. Such

procedures were created pursuant to negotiations between the Debtors and all interested and

willing parties. Wilmington Trust Company serves as indenture trustee for certain structured

securities issued by LBHI, which securities are the subject of claim number 10082 filed by

Wilmington Trust against LBHI. LBHI intends to negotiate the allowed claim amount for claim

number 10082 with Wilmington Trust Company and therefore claim 10082 is not subject to this

Motion.

16.   More than 21,000 claims were filed against the Debtors based on the

Structured Securities in the aggregate in excess of $55 billion.[4] Based on the Debtors review of

filed claims, it appears that claimants had a difficult time determining the claim amount based on

such securities. Claims were filed in various currencies asserting claims for the notional amount,

the face amount, the number of units and/or unliquidated amounts. The valuation methodologies

utilized by the claimants, to the extent they were provided, appear to have varied widely. Such

confusion is understandable considering the idiosyncratic nature and characteristics of these

securities. As a result, the review and reconciliation of each of the Structured Securities Claims

has been a laborious and time consuming task. The relief sought in this Motion is necessary to

address the enormous number of Structured Securities Claims that have been filed.

17.   The Debtors' motion seeking approval of the Proposed Disclosure

Statement and solicitation and voting procedures is scheduled to be heard by the Court on

August 30, 2011 [Docket No. 18126]. If the Proposed Disclosure Statement and solicitation and

voting procedures are approved by the Court, the Debtors intend to commence solicitation of

votes to accept or reject the Plan shortly thereafter. Approval of the Structured Securities Claims

Determination Procedures (as defined below) will enable the Debtors to determine the allowed

amount of a significant number of the Structured Securities Claims for the purposes of voting

and distributions under the Plan prior to the voting deadline, resulting in holders of such Claims

voting in the proper amounts. In addition, many of the Structured Securities that are filed in

unliquidated amounts would be liquidated, helping crystallize the overall claims pool.

---

[4]   This amount includes claims included in these proofs of claims on grounds other than ownership of
Structured Securities.

18.   Certain of the Structured Securities Claims include claims based on

grounds other than Structured Securities. The Motion is only seeking to establish procedures for

the determination of the allowed claim amount for the portions of the Structured Securities

Claims that are based on Structured Securities. The Motion does not have any effect on the

portions of the Structured Securities Claims that are based on claims other than Structured

Securities.

<div align="center">

**The Procedures For Determining
Allowed Amount of Structured Securities Claims**

</div>

19.   The Debtors anticipate that a large number of Structured Securities Claims

can be reconciled and the allowed claim amounts consensually determined pursuant to the

procedures set forth in this motion. This Motion will describe the allocation of the maximum

amounts owed on each Structured Security to the various entities that hold varying portions of

such security. The Debtors intend to propose allowed claim amounts to each holder of a

Structured Securities Claim for the purposes of voting and distributions under the Plan. The first

step in the determination of the amount for each Structured Securities Claim is to calculate the

value of the underlying Structured Security itself. The Debtors have published two iterations of

their proposed methodologies for valuing Structured Securities. First, the Debtors published

proposed methodologies for valuing the LBT Notes on www.lehman-docket.com on October 29,

2010, and filed such methodologies with the Securities and Exchange Commission on an 8-K.

Following subsequent conversations with various groups of noteholders and the advisors to the

Creditors' Committee, the Debtors modified such methodologies and published such modified

methodologies as Exhibit 11 to the Proposed Disclosure Statement. The Debtors also posted the

modified methodologies on www.lehman-docket.com on January 25, 2011 (as such

methodologies may be amended from time to time prior to the record date for voting on the Plan,

the "Structured Securities Valuation Methodologies"). As will be described below, a further

update to such methodologies concerning the date to be used for purposes of foreign exchange

conversion was made prior to the filing of the Plan. The Structured Securities Valuation

Methodologies are annexed hereto as Exhibit B. Each time the Debtors published a version of

the methodologies, the Debtors also calculated the Maximum Allowable Amount for each

Structured Security in accordance with such methodologies (the "Maximum Allowable

Amount") and published a list of such amounts on www.lehman-docket.com.

> 20.   The methodologies used to determine the Maximum Allowable Amount

are similar to those employed by Lehman prior to the Commencement Date to calculate and

record its liabilities for Structured Securities on its books and records. Certain adjustments were

made taking into account the provisions of section 502(b) of the Bankruptcy Code and other

provisions and case law regarding the allowance of claims against a debtor. In addition, the

methodologies were adjusted to reflect negotiated resolutions of divergent opinions among the

Debtors, the Creditors' Committee, and certain significant holders of Structured Securities

Claims, several of whom have entered into agreements to support the Plan (each, a "Plan

Support Agreement") based in part upon its incorporation of the Structured Securities Valuation

Methodologies.

> 21.   As a result of further discussions among these parties, the Debtors have

agreed that the foreign exchange rates used to calculate the Maximum Allowable Amount of

each Structured Security will be adjusted to reflect the prevailing rates as of the Petition Date.

Accordingly, the Debtors intend to publish a revised list of the Maximum Allowable Amount for

each Structured Security reflecting such adjustments on or before August 15, 2011.

22.   Typically, each Structured Security is held by multiple holders and

divided in varying amounts and proportions. The Debtors are working to allocate the Maximum

Allowable Amounts for the Structured Securities to the holders of claims filed based on the

Structured Securities in proportion to each Claimant's ratable interest in a particular Structured

Security.

23.   Examples of the calculation of a proposed allowed claim amount

calculated in accordance with the procedures described above (the "Proposed Allowed Claim

Amount") for three different claims are included on Exhibit C annexed hereto. The Debtors

propose to calculate the allowed claim amounts for Structured Securities Claims substantially in

the manner set forth on Exhibit C. The Debtors are not seeking approval of the methodologies

utilized to calculate the Proposed Allowed Claim Amounts in this Motion.

24.   24.   To the extent that they may do so without violating with the terms

of any Plan Support Agreement, if the Structured Securities Claims Determination Procedures

(defined below) are not approved, the Debtors reserve the right to object to the amount of any

Structured Securities Claim and assert that the allowed amount may be different than the

applicable Proposed Allowed Claim Amount.

Notice and Objection Procedures

25.   The procedures proposed in this Motion are not intended to affect or

modify the rights of any holder of a Structured Securities Claim to dispute or challenge the

Debtors' Proposed Allowed Claim Amount or to defend their previously asserted claim amount.

The procedures are intended only to provide for an orderly process whereby the Debtors and the

claimants can seek to resolve any disagreements regarding the claim amounts. To the extent the

Debtors and any claimant are unable to agree on the claim amount following compliance with

the procedures set forth herein, the Court will be the ultimate arbiter of such disputes. The

Debtors propose the following procedures (the "Structured Securities Claim Determination

Procedures") for (i) providing notice to each holder of a Structured Securities Claim (each, a

"Claimant") of their Proposed Allowed Claim Amount, (ii) Claimants to respond to the Proposed

Allowed Claim Amount and (iii) the resolution of responses to the Proposed Allowed Claim

Amount:

[5]   To the extent the Debtors are unable to complete the calculations for, or obtain the approval of the
Creditors' Committee for the valuations of, one or more Structured Securities Claims prior to August 15, 2011, the
Debtors will identify such Structured Securities Claims and indicate that the Proposed Allowed Claim Amount has
not yet been determined. Additionally, the Debtors reserve the right to object to any such claims for voting purposes

Securities for purposes of voting and distributions under the Plan and (2) Epiq Bankruptcy Solutions, LLC, as the Court-appointed claims agent (the "Claims Agent") shall be authorized to modify the Claims Register to reflect the Proposed Allowed Claim Amount and to reflect that for the portion of their claim based on Structured Securities such claim is deemed allowed in such amount for the purposes of voting and distributions under the Plan.

(d)   If the Maximum Allowable Amount or Proposed Allowed Claim Amount is modified as a result of negotiations or discussions with a claimant, or otherwise, the Proposed Allowed Claim Amount for each other holder of a Structured Security with the same International Securities Identification Number will be adjusted accordingly.

(e)   Claims ADR. If the Debtors and a Claimant are unable to consensually resolve any timely delivered Response, this Motion shall be deemed to be an objection to such claim and the claim shall be deemed to be a "Contested Claim" as such term is defined in the *Order Pursuant to Section 105 of the Bankruptcy Code, Bankruptcy Rule 9014, and General Order M-390 Authorizing the Debtors to Implement Claims Hearing Procedures and Alternative Dispute Resolution Procedures For Claims Against Debtors* [Docket No. 8474] (the "Claims ADR Order"). The Debtors may commence the ADR Procedures or schedule a Merits Hearing (as such terms are defined in the Claims ADR Order) in accordance with the provisions of the Claims ADR Order. The Debtors will provide claimants with notice of a scheduled Merits Hearing at least 30 days prior to such hearing. Claimants will be entitled to file a response at least 7 days prior to such scheduled Merits Hearing.

26.   The Structured Securities Valuation Methodologies and Proposed Allowed Claim Amounts calculated in accordance therewith are part of a proposed compromise and resolution of various issues relating to the Structured Securities Claims. The Structured Securities Claims are only being allowed pursuant to this Motion for the purposes of voting and distributions under the Debtors' Plan. To the extent the Plan is not confirmed, the Debtors reserve the right to object to the Structured Securities Claims on all grounds and not to give effect to the Proposed Claim Amounts.

27.   To date, the Debtors have not completed their review of all of the Structured Securities Claims. The Debtors reserve the right to object to the Structured Securities

Claims at any time, including, after such claims have been allowed for the purposes of voting

and distributions under the Plan, on the grounds that such claims do not include a blocking

number or include an invalid blocking number, are duplicative of other claims, have been

amended and superseded, or otherwise do not comply with the provisions of the Bar Date Order.

In addition, the Debtors reserve the right to modify the Maximum Allowable Amount of each

Structured Security or Proposed Allowed Claim Amounts in order to correct any manifest errors

(including inconsistent application of these principles) in the application of the Structured

Securities Valuation Methodologies.

**The Approval of The Procedures for The
Determination of the Allowed Amount of Structured Securities
Claims Is in The Best Interests of the Debtors, and their Estates and Creditors**

28.   Section 105(a) of the Bankruptcy Code provides, in pertinent part, that a

bankruptcy court may "issue any order, process, or judgment that is necessary or appropriate to

carry out the provisions [of the Bankruptcy Code]." 11 U.S.C. § 105(a). Under section 105(a) of

the Bankruptcy Code, the Court has expansive equitable power to fashion any order or decree

that is in the interest of preserving or protecting the value of a debtor's assets. *See, e.g.,*

Chinichian v. Campolongo (In re Chinichian), 784 F.2d 1440, 1443 (9th Cir. 1986) ("Section

105 sets out the power of the bankruptcy court to fashion orders as necessary pursuant to the

purposes of the Bankruptcy Code.") (citations omitted); *Comm. of Equity Sec. Holders v. Lionel*

Corp. (In re Lionel Corp.), 722 F.2d 1063, 1069 (2d Cir. 1983) ("[A] bankruptcy judge must

have substantial freedom to tailor his orders to meet differing circumstances."). The substantial

number of Structures Securities Claims necessitates procedures to enable the Debtors to

administer the claims without incurring the considerable time and expense to the Debtors, the

claimants and the Court. The Court has the power to approve such procedures in connection

with the administration of the Debtors' cases.

29.   This Court has previously recognized the extraordinary nature of the

Debtors' chapter 11 cases and the need for omnibus procedures to enable the Debtors to

administer their estates without having to seek Court approval for each and every action.[6] The

other orders providing the Debtors omnibus authority to take certain actions have been effective

in saving the Debtors time and resources, thereby preserving value for the estates.

30.   The reconciliation of the Structured Securities Claims is a monumental

task. The Structured Securities Claim Determination Procedures are intended to enable the

Debtors and the Claimants to agree on the claim amounts for the purposes of voting and

distributions under the Plan without having to participate in expensive and protracted litigation.

Absent such procedures, the Debtors would be forced to file more than 40 separate omnibus

claim objections to the Structured Securities Claims and seek to resolve the claims before the

Court or through established alternative dispute resolution procedures. Due to the complex

nature of the Structured Securities, litigation regarding the allowed claim amounts would be

particularly difficult and costly. Moreover, such litigation could possibly take years to conclude,

delaying distributions to creditors.

31.   The Debtors are not seeking to impose any claim amounts or the

methodologies upon the Claimants. In the event the Structured Securities Claim Determination

Procedures do not facilitate a consensual resolution, all rights of the Claimants are preserved and

the Court would be the ultimate arbiter of any disputes. The Structured Securities Claim

Determination Procedures merely provide a process for the Debtors to propose methodologies to

all holders of Structured Securities Claims for the valuation of such securities and the allowed

amounts of such claims in a uniform fashion. The procedures describe the means by which the

Debtors will allocate the amount owed under each Structured Securities among the various

holders of such securities. Implementation of the Structured Securities Claim Determination

Procedures will greatly benefit the Debtors estates by reducing the time and costs spent

reconciling such claims.

32.   Allowing the Debtors to settle the Structured Securities Claims without

further Court approval is an appropriate use of the Court's power under Bankruptcy Rule

9019(b). Bankruptcy Rule 9019(b) permits a court, after a hearing on such notice as the court

may direct, to "fix a class or classes of controversies and authorize the trustee to compromise or

settle controversies within such class or classes without further hearing or notice." Fed. R.

Bankr. P. 9019(b).

33.   Rule 9019 empowers bankruptcy courts to approve settlements "if they are

in the best interests of the estate." *Vaughn v. Drexel Burnham Lambert Group, Inc. (In re Drexel

Burnham Lambert Group, Inc.)*, 134 B.R. 499, 505 (Bankr. S.D.N.Y. 1991); *see Fisher v.*

settlement need not result in the best possible outcome for the debtor, but must not "fall beneath

the lowest point in the range of reasonableness." *Drexel Burnham Lambert Group*, 134 B.R. at

505; *see also Cosoff v. Rodman (In re W.T. Grant Co.)*, 699 F.2d 599, 608 (2d Cir. 1983); *In re*

Spielfogel, 211 B.R. 133, 144 (Bankr. E.D.N.Y. 1997).

        34.   The Debtors will exercise their reasonable business judgment in

calculating the Proposed Allowed Claim Amounts and will be guided by the factors relevant to a

determination of the reasonableness of such proposed settlements, including:

      (a)   the probability of success in the litigation;

      (b)   the complexity, expense and likely duration of the litigation;

      (c)   all other factors relevant to making a full and fair assessment of the
               wisdom of the proposed compromise; and

      (d)   whether the proposed compromise is fair and equitable to the Debtors,
               their creditors and other interested parties.

Protective Comm. for Indep. Stockholders of TMT Trailer Ferry, Inc. v. Anderson, 390 U.S. 414,

424 (1968). Basic to the process of evaluating proposed settlements is "the need to compare the

terms of the compromise with the likely rewards of litigation." *Id*. at 425.

        35.   The Debtors believe, in their reasonable business judgment, that the

Structured Securities Claim Determination Procedures constitute a fair and cost-effective method

for resolving outstanding Structured Securities Claims and avoid the expenses and risk inherent

in litigating such claims. The Debtors have determined that the valuation methodologies are a

reasonable approach for the determination of the Proposed Allowed Claim Amounts and the

Proposed Allowed Claim Amounts are fair. Given the number of the Structured Securities

Claims, the Structured Securities Claim Determination Procedures will spare the Debtors' estates

the unnecessary administrative expense incurred if the Debtors were required to object to and

litigate each of the Structured Securities Claims. The Debtors submit that the Structured

Securities Claim Determination Procedures for determining the Proposed Allowed Claim

Amounts meet the standards of section 9019 of the Bankruptcy Code and are in the best interest

of the Debtors, their creditors and all parties in interest.

36.   To the extent that the Debtors and any Claimant are unable to agree on the

allowed amount of a Structured Securities Claim, this motion shall be deemed an objection to

such claim, and "the court, after notice and a hearing, shall determine the amount of such claim

in lawful currency of the United States as of the date of the filing of the petition, and shall allow

such claim in such amount." 11 U.S.C. § 502(b). A filed proof of claim is "deemed allowed,

unless a party in interest . . . objects." 11 U.S.C. § 502(a). If an objection refuting at least one of

the claim's essential allegations is asserted, the claimant has the burden to demonstrate the

validity of the claim. See *In re Oneida Ltd.,* 400 B.R. 384, 389 (Bankr. S.D.N.Y. 2009); *In re*

S.D.N.Y. 2000). Deeming this motion an objection to any unresolved Structured Securities

Claim will enable the Debtors to utilize the procedures set forth in the Claims ADR Order

previously entered by this Court, without the Debtors having to incur the expense of preparing a

separate objection to such claims.

Structured Securities Valuation Methodologies

1.   **Categorization**

In connection with evaluating the Structured Securities Claims, LBHI reviewed approximately 5,000 securities issuances. Based on the terms and characteristics of each of the Structured Securities, LBHI separated the Structured Securities into the three categories described below.

a.   **Par Par Notes**

"Par Par Notes" are either (A) notes for which the terms of the contract provide for either (i) redemption at par at maturity (whether or not described as being "principal protected") and that pay non-contingent periodic interest or (ii) redemption at par, no payments of interest and do not reflect any accrual yield; or (B) FMV Notes (as defined below) that are described as at least 90% principal protected. Notes that redeem at par may indicate so on their face or may indicate a redemption at par by a formula which calculates to a minimum of par. If there are any factors that may result in a holder of a note receiving less than par for a note upon maturity, the note is not classified as a Par Par Note. This analysis is made without any regard to the probability of redemption in an amount less than par.

b.   **Zero Coupon Notes**

"Zero Coupon Notes" are notes that do not bear interest and were issued at a significant discount to their face amount (and such discount was not solely attributable to distribution fees paid to dealers). These notes specify an accrual yield in their terms and do not pay interest pursuant to their terms.

c.   **Fair Market Value Notes**

Fair Market Value Notes ("FMV Notes") are notes that cannot be included in either of the categories set forth in the two preceding paragraphs. Certain of the FMV Notes provide that a portion (less than 90%) of the final redemption amount is "protected" but interest is fully contingent, while others provide that the final redemption amount is fully contingent. In classifying the FMV Notes, no consideration has been given to probabilities of contingencies occurring. The mere fact that the note is linked to the performance of an Underlying is enough to classify the instrument as a FMV Note. FMV Notes include, without limitation, (a) notes that redeem at par but pay contingent interest, (b) notes that are not redeemable at par and pay simple interest, (c) notes that are not redeemable at par and pay contingent interest and (d) notes that are not redeemable at par and pay no interest at all or pay simple interest for a time converting to contingent interest. The examples above are not intended to be an exhaustive list of the types of notes that are categorized as FMV Notes.

2.   **Lehman's Accounting Treatment of Structured Securities Prior to the Commencement Date**

The Structured Securities Valuation Methodology takes into account Lehman's firm-wide accounting treatment of Structured Securities prior to the Commencement Date and applies the overlay of the Bankruptcy Code rules for determining the appropriate amount of Claims. Prior to the Commencement Date, Lehman's balance sheet included as a liability the Outstanding Notional Amount of Structured Securities, as adjusted to take into account (i) the fair value of such securities including the derivative portion (the "FV") and (ii) Lehman's credit risk; provided that with respect to the LBHI Structured Notes, after August 31, 2008, Lehman's balance sheet did not take into account Lehman's credit risk.

The fair value adjustment (the "FVA") is based on the value of Lehman's offsetting derivative hedge trade. In order to hedge exposure to the Structured Securities, certain of the Structured Securities Issuers entered into derivative contracts with other Lehman entities. The mark-to-market value of the derivative hedge was calculated as of the end of the day on September 12, 2008, based upon various Lehman internal derivative models in accordance with the methodology used on previous audited financials. Because interest continued to accrue over the weekend, the September 14, 2008 mark-to-market valuations represent mark-to-market valuations as of September 12, 2008 plus accrued interest on such valuations through the end of the day on September 14, 2008.

3.   **The Structured Securities Valuation Methodology**

a.   **General Principles for Valuing Structured Securities Claims Based on Bankruptcy Code**

The following general principles apply to the Structured Securities Methodology:

(i)   A claim that arises from the Guarantee of an obligation is generally treated no differently under section 502 of the Bankruptcy Code than a direct claim arising from the same obligation would be treated under the Code.

(ii)   Under section 502(b) of the Bankruptcy Code, the Bankruptcy Court must determine the amount of a claim as of the Commencement Date. Consequently, interest stops accruing (for Par Par Notes and FMV Notes that bear interest) and stops accreting (for Zero Coupon Notes) as of the Commencement Date.

(iii)   Acceleration of the Structured Securities is not discussed herein because based on the information available there were no Structured Securities accelerated as of the Commencement Date. Any attempted acceleration after the Commencement Date is disregarded because a creditor may not accelerate debt post petition without first seeking relief from the automatic stay. *See, e.g., In re PCH Assocs.*, 122 B.R. 181, 198 (Bankr. S.D.N.Y. 1990) ("A post-filing acceleration of the Note[] would clearly have violated the automatic stay of section 362 of the Code and, therefore, would have been null and void."); *In re Texaco Inc.*, 73 B.R. 960, 967 (Bankr. S.D.N.Y. 1987) (holding that acceleration of the debt under the contract's terms was proscribed by the automatic stay); *In re Manville Forest*

Prods. Corp., 43 B.R. 293, 298 (Bankr. S.D.N.Y. 1984) (explaining that "tak[ing] overt steps to accelerate the debt without first seeking a modification of the stay ... would have violated the stay."), *aff'd in part*, 60 B.R. 403 (S.D.N.Y. 1986). As a result, acceleration notices received by LBHI after the Commencement Date in violation of the automatic stay are void and have no effect on claims amounts. *See Eastern Refractories Co. Inc. v. Forty Eight Insulations Inc.*, 157 F.3d 169, 172 (2d Cir. 1998) ("any proceedings or actions [that violate the automatic stay] are void and without vitality if they occur after the automatic stay takes effect.").

(iv)   A credit value adjustment ("CVA") using LBHI's credit spread as of the Commencement Date is not included for the purpose of determining an Allowed Claim under section 502 of the Bankruptcy Code. Accordingly, LBHI's method of determining Structured Securities Claims will add-back the reduction in the Structured Securities liabilities set forth on Lehman's books and records that recognized the credit spread as of the Commencement Date (the "CVA Add-Back"). In addition, for the reasons set forth below, in determining Allowed Claims for Structured Securities the FVA should only apply to FMV Notes. Accordingly, for all categories of Structured Securities *except* FMV Notes, any discount taken on account of the FVA is added back (the "FVA Add-Back").

b.   Application of the General Principles to Structured Securities

(i)   Par Par Notes

With respect to Par Par Notes, Allowed Claims will be equal to the sum of the principal amount *plus* any matured interest (whether or not such interest is contingent) as of the Commencement Date, regardless of principal protection. To the extent that interest is unmatured as of the Commencement Date, it is disallowed. The Allowed Claim amount includes a CVA Add-Back and an FVA Add-Back that adjusts the fair market value of the note to the original notional of the outstanding issue. Par Par Notes with greater than 100% principal protection are limited to the original notional of the outstanding issue.

(ii)   Zero Coupon

With respect to Zero Coupon Notes, Allowed Claims will be equal to the sum of the issue price *plus* any accreted interest as of the Commencement Date. The Allowed Claim amount includes a CVA Add-Back and an FVA Add-Back calculated based on the difference between the fair market value and the original issuance yield to adjust the value of the note back to the original issuance yield.

(iii)   FMV Notes

With respect to the FMV Notes, if a Claim is contingent or unliquidated, the Claim is estimated under section 502(c) of the Bankruptcy Code using "whatever method is best suited to the particular contingencies at issue." *See Bittner v. Borne Chemical Co., Inc.*, 691 F.2d 134, 135 (3d Cir. 1982). The method of estimation must be (1) suited to the circumstances and (2) accommodate the underlying purposes of the Bankruptcy Code. *See id.* The point is to recognize what the creditor bargained for, while avoiding a windfall to any party.

B-3

The FMV Notes present unique circumstances and challenges due to the diversity and complexity of their structures, the number of issuers and consequent intercompany relationships they entail, and the numerosity and dispersion of investors. Estimating the value of a FMV Note by the replacement cost of the lost investment (*i.e.*, its fair market value) as of the Commencement Date achieves these objectives, is economically realistic, promotes certainty, and eases the administration of the estate, because it follows LBHI's pre-petition internal accounting methodology.

Prior to the Commencement Date, Lehman's fair market value determination inherently incorporated the concept of discounting expected cash flows back to the Commencement Date using a market rate plus LBHI's credit spread. For purposes of the Structured Securities Methodology, however, a CVA Add-Back (but no FVA Add-Back) is applied in order to eliminate the discount for LBHI's credit spread as of the Commencement Date. The fair value of the FMV Notes includes matured interest through the calculation date. Consequently, there is no separate add-back for matured interest.

** Certain of the Structured Securities were not included on the list of "Lehman Programs Securities" created in connection with the Bar Date Order, and therefore claimants filing claims based on such securities were not required to obtain blocking numbers in connection with their claims. The calculations of the Proposed Allowed Claim Amounts for such claims will not include the steps relating to blocking numbers. Further, certain of the Structured Securities that are not "Lehman Programs Securities," do include an indenture trustee that filed a global claim on behalf of all holders.
